

May I Borrow?

The "Favor, Not Service" Community App

Use Cases

1. Apartment Communities

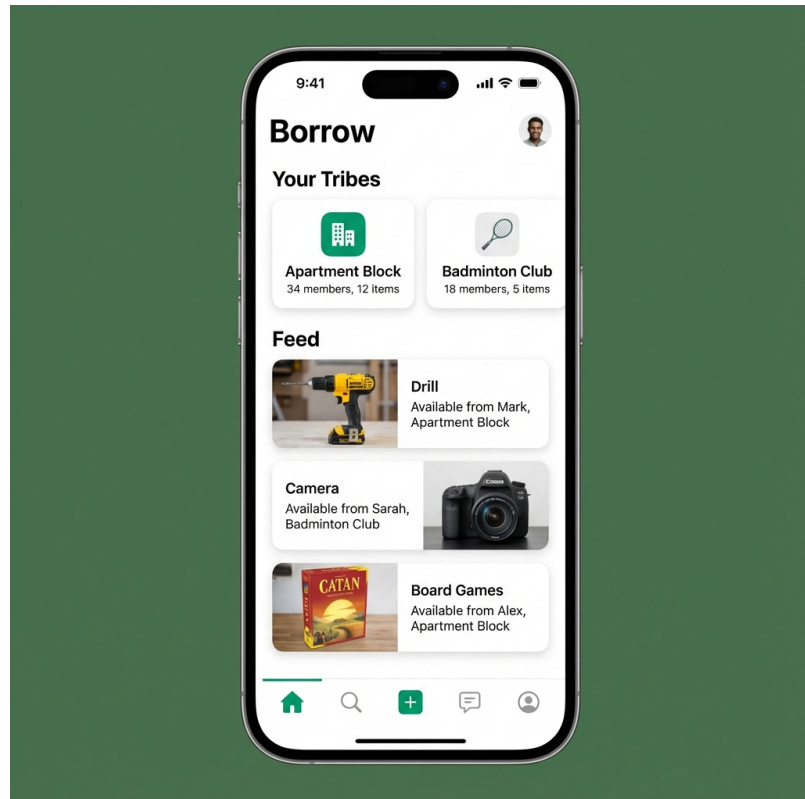

Neighbors sharing drills, ladders, and party chairs. Why buy when you can borrow?

2. Hobby Clubs

Book clubs exchanging reads, cycling groups sharing gear, or board game nights.

3. Office Spaces

Colleagues sharing chargers, adapters, or specialized tools.

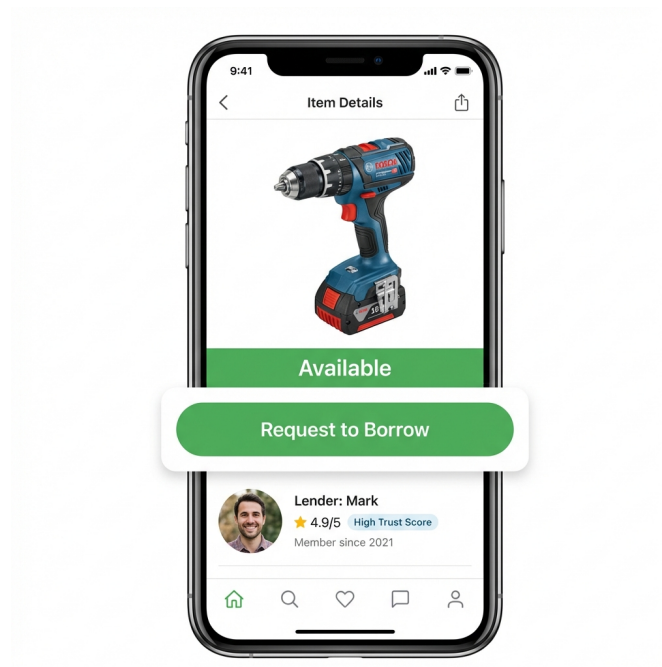

How It Works: Tribes

Lending happens in "Tribes" (Groups), not random feeds. Trust is built within circles you already know.

Step 1: Join a Tribe (e.g., "Tower A Residents").

Step 2: Post an Item (or Request one).

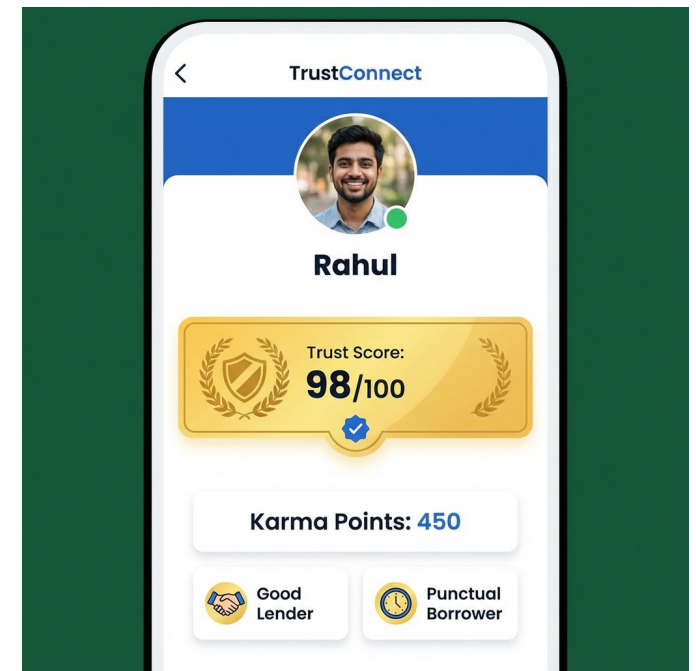

Step 3: Approval is based on Trust Scores.

Trust & Karma

The core of "May I Borrow" is reputation.

- Trust Score: Based on successful returns and verification.
- Karma Points: Earned by lending. Spend them to borrow premium items.
- Community Pledge: Every user signs a pledge to respect items.
